

## 1.5 Million Cribs Recalled

Over 1.5 million Delta Enterprise Corp. drop side cribs have been recalled. This important safety recall comes after the U.S. Consumer Product Safety Commission (CPSC), in cooperation with Delta Enterprise Corp., found that 985,000 cribs were manufactured and packaged without safety pegs and an additional 600,000 cribs have a safety peg failure defect. As of October 21, 2008, there were two reports of infant deaths and two cases of entrapment. Details on the recall are listed below. CPSC and Delta urge parents and caregivers to immediately stop using these cribs and contact Delta to receive a free, easy-to-install repair kit. Call Delta toll-free at (800) 816-5304 anytime after 5 pm or log on [www.cribrecallcenter.com](http://www.cribrecallcenter.com) to order the free repair kit.
