Who We Are

Founded in 1999, the Simmons firm is a leading national law firm in the fight against mesothelioma and other cases of corporate wrongdoing. Our attorneys have extensive experience in asbestos litigation and have represented thousands of individuals and families throughout the country.

The Simmons firm stands on a strong foundation of values and a track record of success. With more than 10 years of service to our clients and our communities, we have a dedicated staff of over 200 people that are ready to give you the attention and respect you deserve.

What We Believe

We believe victims of mesothelioma and asbestos exposure deserve a voice in the American legal system. Through no fault of your own, you or someone you love has been harmed, and we are committed to helping you stand up for your rights.

We are passionate about improving the lives of victims of mesothelioma and asbestos-related

Putting People First (Cont.)

illnesses – and their families – by fighting for their interests and supporting the search for better treatment and a cure. This is our common cause.

How We Work

We will work hard for you, representing you and your family on a contingency basis and investing in your right to take legal action – at no cost to you.

Since day one, we've treated our clients as our number one priority. We live this promise today just like we did a decade ago.

Choosing an Attorney

Keep in mind that no matter what your legal dispute, selecting an attorney is an important decision that should not be made based on a website, an ad or any kind of marketing. It should be made based on personal contact with an attorney. We encourage you to contact us if you feel we are a good fit for your case. If you cannot determine if we are the people you need to successfully handle your case, please visit our should you contact us section to help you make your decision.

** Please note that recovery results vary per client. The recovery amounts in each case reflect the specific facts of that case. Further, recovery amounts in past cases are not a guarantee of future results.*
