

# Currently Accepting Chemical Hair Straightener Case Referrals Nationwide

If a case involving chemical hair straighteners and relaxers crosses your desk, we hope you'll think of us. Simmons Hanly Conroy has the experience and resources necessary to hold negligent companies accountable and fight for justice on behalf of your clients.

New research has found that chemical hair straighteners and relaxers more than double the risk of uterine cancer in women and may cause other conditions like endometriosis and uterine fibroids. These hair straightening products could contain substances linked to cancer.

Simmons Hanly Conroy stands ready to help anyone who developed uterine or endometrial cancer from these straighteners pursue compensation from a chemical hair straightener lawsuit.

In fact, Named Shareholder Jayne Conroy has been appointed to the Plaintiffs' Executive Committee (PEC) for the hair relaxer products injury multidistrict litigation (MDL) in the U.S. District Court for the Northern District of Illinois.

## Partner with an Experienced Legal Team with a Continuing Track Record of Results

Simmons Hanly Conroy has secured **over \$11 billion** in settlements and shared hundreds of millions in referral fees. With more than 100 attorneys in offices coast to coast, we are your one-stop litigation partner. We are dedicated to giving others a voice in the legal system and have received justice for thousands of clients nationwide. Our team works hard to ensure your referral fee is secured and that your case receives the personalized representation it deserves.
